Libraries Without Borders US

Senior Library Consultant (Cross-Functional)

Service Areas: *Multiple service areas based on project needs*

Position Overview

The Senior Library Consultant brings broad experience across multiple service areas and can serve in various capacities based on project needs. This role is for experienced consultants who can lead comprehensive engagements, collaborate with other consultants on complex projects, or contribute specific expertise as part of a larger team. Senior Consultants may work independently on integrated projects or partner with specialized consultants on multi-faceted engagements.

Key Responsibilities

- Lead or co-lead comprehensive consulting engagements that span multiple service areas
- Coordinate with specialized consultants to deliver integrated solutions to library partners
- Conduct needs assessments and develop project approaches that address complex challenges
- Serve as primary client contact for relationship management and project coordination
- Provide expertise in multiple service areas including community assessment, program development, outreach strategy, or strategic planning
- Adapt role and responsibilities based on project requirements and consultant capacity
- Build and leverage regional relationships to generate partnership opportunities
- Collaborate with other consultants as part of a community of practice
- Contribute to proposal development for complex, multi-service engagements

Qualifications

- 7+ years of experience in library consulting, community development, or related fields
- Demonstrated expertise in at least two of our six service areas
- Experience leading or managing complex projects from design through implementation
- Strong client relationship management and communication skills
- Ability to work collaboratively with diverse teams and coordinate multiple consultants
- Experience working with public libraries or similar community-serving institutions
- Understanding of equity frameworks and experience with underserved communities
- Comfort with ambiguity and adaptive problem-solving
- Bachelor's degree required; Master's in library science, public administration, or related field preferred
- Geographic presence in regions where LWB US seeks to expand partnerships is a plus
